Register today for the Second Annual Thyroid & Adrenal Research Institute (TARI) workshop and learn how you can now accurately diagnose sub-clinical Hypothyroidism to improve your patient's health and well-being.

As a trained Healthcare professional, you have probably realized that many cases of sub-clinical Hypothyroid can go un-diagnosed due to the inherent difficulty in testing and diagnosis.

TARI is proud to present World expert Dr. Konrad Kail & Dr. Daryl Turner who are leading the way in accurate diagnosis and treatment of Hypothyroidism and related diseases. This is a rare opportunity to learn the most up to date information and research on how to effectively diagnose and treat Sub-Clinical Hypothyroidism as well as treatment for Cortisol & Iodine deficiency problems.

These world renowned Doctors will be in your city for just one day. This enlightening workshop will teach you how you can quickly and effectively diagnose your clients while "Improving the profitability of your practice."

Learn how you can obtain this cutting-edge non-invasive diagnostic technology in your office with no out of pocket cost for screening of your patients at risk for Sub-Clinical Hypothyroidism with results in 4 minutes. This device reduces the need for TSH serum testing and BMR readings. This event should not be missed!

Book now to attend this outstanding workshop and learn how you can use the
