February 12, 2007

Dear Healthcare Practitioner:

TRANSFORMATIONS & The Thyroid & Adrenal Research Institute are proud to present award-winning medical researcher, **Dr. Konrad Kail** to present research on the diagnosis and treatment of **Thyroid and Adrenal** disorders.

Dr. Kail, and his research staff have conducted a series of clinical trials that look at thyroid dysfunction, iodine adequacy and adrenal dysfunction. The preliminary results of the trials have suggested a new **management paradigm for thyroid dysfunctions** based on symptoms and physiological markers such as resting metabolic rate (RMR), basal body temperatures (BBT), and forearm extensor reflex intervals, as well as standard serum hormone measurements.

You are **invited to attend a medical conference** that will introduce Dr.Kail's findings; a new approach to Thyroid testing that is noninvasive, and inexpensive, combined with **wonderful opportunities** to attract new cash paying patients to your practice.

The conference will be held on Wednesday **February 21st, 2007** in Scottsdale, Arizona between **6.30PM and 8.30PM**. Hors d'oeuvres will be served and the cost of attendance is only \$49.00* per person. As we are limiting the number of attendees, please RSVP at your earliest convenience by calling:

866-985-6774

I know you will be delighted with what you will learn from this conference to **better care for your patients, and have a more successful practice.**

Sincerely,
Al Pirnia, CEO
Direct: 213-798-7400

Net proceeds will be donated to the For Need Foundation, a charitable foundation 501(c) 3 allowing your payment to be tax deductible.
